handy mandy

An existing Mayhem product, the Ergonomic Handy Drill, was repositioned as a light-hearted fun gift item primarily for sale through the Mayhem charity catalogue and websites, with new colouring & graphics, packaging, instructions and display materials. The 'Handy Mandy' logo was developed very much in the spirit of the 'Charlie's Angels' silhouette, while the product itself features an integral white LED to provide illumination in tight corners, easy-change chuck and an array of drill, screwdriver and socket bits, all carried in a belt-mounted pouch. See also the (slightly) more subdued companion product, the DIY Diva.
